About Me

- I am an AI researcher specializing in LLMs and software engineering.
- I founded *Pharo-LLM* and lead open-source projects including *ChatPharo* and *Pharo-Copilot*.
- Beyond research, I mentor students through *GSoC*, serve as President of *Synapse-NeuroTech-Lille*, and contribute to academic events (*ESUG*, *GDR-GPL*) and national AI initiatives (*CNNum*, *Club IA*).

Professional Experience

AI Researcher **Sep. 2026 — Dec. 2026**
Polytechnique Montréal *Montréal, Canada*

•

PhD Student **Oct. 2024 — Oct. 2027**
Institut national de recherche en sciences et technologies du numérique (INRIA) *Villeneuve-d'Ascq, France*

- Improving code completion and code generation using LLMs, specifically targeting the Pharo programming language, which has limited training data.
- Developing techniques for code completion, type inference, and deployment in Pharo's IDE, with a focus on runtime performance.

AI Engineer **Sept. 2023 — Sept. 2024**
Institut national de l'environnement industriel et des risques (INERIS) *Verneuil-en-Halatte, France*

- Developed *INERIS-IA*, a tool to classify textual documents according to INERIS's strategic goals using ML and NLP techniques.
- Created Boolean queries for document retrieval and improved corpus quality through document similarity and keyword extraction.

Intern **June 2023 — Aug. 2023**
Laboratoire d'Informatique de Paris Nord (LIPN) *Villetaneuse, France*

- Compared sampling techniques for probabilistic planning, particularly for generating literary narratives.
- Evaluated methods including the Score Function Estimator (SFE) and advanced techniques such as Gumbel-Softmax, assessing their effectiveness in producing coherent and creative stories.

Education

Ph.D.in Computer Science, *University of Lille* 09 2027
M.Sc. in Natural Language Processing, *University of Lorraine* 09 2024
B.Sc. in Data Science, *Lebanese University* 07 2022
