About Me

Biography:

- I am an AI researcher with extensive experience in artificial intelligence and software engineering.
- I am currently pursuing a Ph.D. in Computer Science at the University of Lille [🔗](#).
- I am currently involved in several open-source, research, AI, and community initiatives, where I contribute as a founder, maintainer, project leader, president, and active member.
- You can see the full list of my current responsibilities [here](#).

Awards:

- Best Paper Award (3rd place) — IWSLT 2025, Gdańsk, Poland
AbdelKader, O., Ducasse, S., Zaitsev, O., Robbes, R., & Polito, G. (2025). Package-Aware Approach for Repository-Level Code Completion in Pharo. *International Workshop on Smalltalk Technologies (IWSLT)*. DOI.

Honors:

- Alumni Testimonial — IDMC 2024, University of Lorraine, France
“Alumni testimonial in NLP & AI in University of Lorraine” [🔗](#)

Publications

Rank A

Services

Current

- Founder and Maintainer of the organization Pharo-LLM [🔗](#).
- Member in the organization Pharo-AI [🔗](#).
- Project Leader and Maintainer for multiples projects (ChatPharo [🔗](#), Pharo-Infer [🔗](#) and many more [🔗](#)).
- Website Maintainer GDR-SciLog [🔗](#)
- President of Synapse-NeuroTech-Lille [🔗](#), a student association focused on AI and neuroscience.
- Member at Club IA et Transition écologique [🔗](#) (Ministère de la Transition Écologique [🔗](#)).
- Contributor at Café IA [🔗](#) (Conseil National du Numérique [🔗](#)).

2027

- *Shadow Reviewer at ICSE'27 [🔗](#)

2026

- Member of the organizing committee, GDR-SciLog'26 [🔗](#).
- Member of the organizing committee, ESUG'26 [🔗](#).

2025

- Member of the organizing committee ESUG'25 [🔗](#)
- Sub reviewer at BENEVOL'25 [🔗](#).

2024

- Member of the organizing committee ESUG'24 [🔗](#).

2023

- Volunteer First Aider in the French Red Cross
-

Teaching

- Teaching assistant at IUT: *Introduction to Software Development* 41,5 h Labs IUT-Lille
 - Teaching assistant at IUT : *Software Maintenance* 12h Tutorials IUT-Lille
 - Teaching assistant at Polytech: *DataBase* 16h Labs Polytech-Lille
 - Teaching assistant at Polytech: *Internet* 12h Labs Polytech-Lille
-

Software

ChatPharo

- Live conversational interface between Pharo developers and large language models.
- Enables interactive discussions with LLMs directly from the Pharo environment.
- Designed an open and extensible architecture to experiment with multiple LLM backends.
- GitHub Repository: ChatPharo

INERIS-IA

- AI platform developed at INERIS for document classification and knowledge management.
 - Built a Flask-based web interface integrating multiple ML and NLP models.
 - Trained document classification models aligned with COP 2027 objectives and INERIS strategic themes.
 - Implemented additional features including document similarity, keyword extraction, and corpus quality improvement.
 - GitHub Repository: INERIS-IA
-

Students

2026

- Mehdi Elkolei, Bachelor Internship, 4 month, April 2026 - July 2026
I supervised Mehdi Elkolei on his work on extending Complishon, Pharo's context-aware code completion engine. His project focused on four UX-oriented extensions: typo tolerance, implicit prefix expansion, grouped completion entries, and camel-case matching. I guided the technical direction and design choices, with particular attention to usability, modularity, and integration with the existing architecture. Elkolei, M., AbedelKader, O., Ducasse, S., & Zaitsev (2026). Alternative UX Extensions and Their Trade-offs for Code Completion in Pharo. *International Workshop on Smalltalk Technologies (IWST)*. DOI.

2025

- Srajal Dwivedi, Google Summer of Code Internship, 3 month, May 2025 - July 2025 I supervised Srajal the ChatPharo project, which aimed to integrate LLMs into the Pharo IDE. It was a Google Summer of Code 2025 project. Srajal improved ChatPharo's user interface and implemented new features to facilitate interaction with LLMs. The project was well-received by the Pharo community and contributed to the adoption of ChatPharo by developers. It was also one of the first projects to integrate LLMs into the Pharo IDE.
-

Public Talks

2026:

- ESUG 2026: ChatPharo: an AI Assistant inside Pharo
- ESUG 2026: Pharo-LLM: Building a sovereign LLM ecosystem in Pharo
- French Brain Awareness Week: AI and the brain: two ways of learning, what does that change for our daily lives?

2025:

- ESUG 2025: ChatPharo: An Open Architecture for Understanding How to Talk Live to LLMs, Gdansk, Poland
 - GT GL: ChatPharo: Talking Live to LLMs from Pharo, Lille, France
 - Scientific Seminar: LLM101-2, Lille, France
 - Scientific Seminar: LLM101, Lille, France
